to God's truths to mankind via his the Texast St. Louis Narrow Gauge rations of God's truths to manking via his company, concerning the proposition to extend the line of said road to Dallas. Captain Adams informed a Herallo representation of God's truths to manking via his chosen children of the house of Jacob. There will be divine service and an English sermon by Rev. Dr. Bien at the Temple at 8 p. m. to-day, and at 10 a. m. to-morrow. tive that President Paramore stated that he would have the road in complete running or-der between St. Louis and Texarkana within twelve months from this date, and that if the citizens of Dallas would secure for his road the right of way through the city and county, and depot grounds, and the sum of \$35,000, he would guarantee the completion of the line between Texarkana and Dallas within the batween texarkens and Dallas within the same period. In other words, if these said conditions should be stones complied with, we should have the continuous line between our city and St. Louis by or before the first of June acst. President Passenger further said that here. Paramore further said that he would be willrarametric to divide or share the said right of way with the St. Louis & Sao Fran-cisco read, coming into Dallas, or with any other road. Now then is the accepted time for our people to set with promptness and energy; and it is to be hoped that the committee, with Mr. J. S. Scruggs as chairmen, will hasten in the obtaining of the required things.

THE CHICAGO, TEXAS & MEXICAN CENTRAL AND GALVESTON, COLORADO A SANTA PE.

Mr. W. S. Davis and Walter Greeham, of gaiveston, arrived here yesterday, to represent the G. C. & S. Fe road in a conference should have read the "Colored Methodist with President Hale and the directors of the C., T. & M. O. road, in the church." C., T. & M. C. road, in the matter of a convenient and fair arrangement for both companies to use the line from or near Cleburne to this point, and hence northeasterly toward Paris, thence toward Chicago, etc. Some propositions were made looking to such an end, and the probabilities are that a consumma-tion will be eventually reached, though the nature and the details being only provisional, it is too early to state them. It may be not irrelevant to announce however, that we may expect the G., C. & S. Fe cars to be running into Dallas before this year shall have its close.

THE EAST LINE ROAD,

The rumor that has been prevailing for the past couple of days, that a construction contract had been let to extend this road to Denton via McKinney, transpires to be without foundation; nor is the report any more correct that it had combined with the Texes and St Louis narrow-gauge. It been quite generally asserted that Mr. Gould now owned the controlling interest in that line. This also is without any confirmation, as Mr. Thos. Scott, Jr., still retains the interestwhich was said to have been disposed of. In view of Dallas being now decreed as the great railway centre, it is clear why that company should naturally enough conclude to come here.

COLLATERAL ENTERPRISES.

In the event of these several desideratd being concluded on shortly, we are to have at an early day, a car factory, several "round" houses and machine shops, and other enterises of great moment to Dallas.

Considering that this city has already denated so nething like a quarter of a million of dollars for her railroads, and that she has met and will continue to meet promptly all interests on the bonds, it is but the rightful course of things that these eventual benefits should accrue, and indeed be cheerfully accorded to her. Dallas is ready to give and do yet more for whatever shall be shown to be in the general interest.

A Negro Thief.

A man of unmistakably African lineage stepped into the grocery and notion store of J. W. Fortune, on Elm street, and after gazing about a little stopped on the notion side of the room. Mrs. Fortune was engaged in conversation with a customer at the time and did not immediately attend to him. When she did come to him he pretended that the articles which he wished to purchase didn't suir, and went out. A little daughter of Mrs. Fortune's observed the negro to put something in his necket when he west, out. something in his pocket when he went out, and so informed her mother. A Mr. Duncan who was in the store called the thief back and made him disgorg-, and attempted to arrost him, but he ran away.

The Cabanas Case.

Harry Cabanas who was arrested several days ago, charged with outraging a little had his preliminary trial before Justice Price yesterday. Nine witnesses in all were examined. The evidence was not conclusive examined. The evidence was not conclusive against the accused, and the case is of doubtful issue. The defense was conducted by Colonel W. L. Crawford and Major J. C. Kearby, and the prosecution by Assistant Courty Attorney Morrow. The witnesses have all been heard. Mr. Morrow made his argument yesterday afternoon and the defense will be heard to-day.

portance is derived as the anniversary of the revelation on Sinai, when in aget and hearing of liborated Israel the decalegue was given them by God. Irrespective of the miraculous relation with which the sacred book surrounds that portentous event, there is nothing in secular prose or poetry which has borne such powerful influence on religion, morality and progress of the civilized world in all ages since that memorial day at Horeb, as the ten words graven on the two tablets of stone. If ever there was justified emulation giving cause for a people's rejoicing, and for commemorative thanksciving, it is this dispension made a pleasant evening. The visitors were met by a committee of two visitors were met by a committee of two ladies, and Mr. and Mrs. Feadrich celeration due to their guests in diagnate style. A Rare Opportunity For Some one to Make Money.

There is certainly a golden opportunity There is certainly a golden opportunity for one or more families to make money by opening a first-class private boarding house in Dallas. At the present time, summer on us as it is, there are at least a dozan or more young men here who are seeking just such places. In the fall and next winter the rewill be very many more. There are several families also who are on the qui vive for really desirable private board. These also will be increased in number when the business seesaon opens with the board of railroad and general industrial prosperity upon us. There are many young men and business gentlemen unable to go too far from their stores, etc., for meals and lodging, and an in, hotels. Therefore, be it rep stad, a first-class private boarding house down town, convenient to the business centre, with furnished rooms, would even new be a paying institution. A fine opportunity is open for some enterprising lady or gentle.
